Summary of Business

There has been an increase in the rate of growth and volume of insurance business transacted in Alberta. For the year 1986 the total insurance premiums paid to insurers was ($2,539 M) two billion and five hundred and thirty-nine million dollars compared to ($2,244 M) two billion and two hundred and forty four million dollars in 1985; an increase of 11.62%.

Liability Insurance

During 1986 many businesses, public institutions, and private, community and volunteer associations experienced substantial increases in their liability insurance premiums. In some cases, they were unable to obtain insurance or to obtain the amount of insurance they consider necessary for their operations. The insurance industry cited many reasons for the problem, including the following:

- reduction in capacity as a result of poor return on their capital investment.
- increasing court awards and settlements with respect to liability insurance claims.

The Alberta Government took the following initiatives and by the end of 1986, the liability insurance situation had stabilized and started to improve.

1. Industry Subscription Policy Arrangement

As a result of discussions between the Department of Consumer and Corporate Affairs and the Insurance Bureau of Canada, a liability insurance subscription policy arrangement was established by approximately 20 insurers. The arrangement provided a market for liability insurance to those who were unable to obtain such insurance. Coverage was limited to $1 M and pollution and environmental damage was excluded.

2. Insurance Resource Group

A consultant was retained by the government to assist members of the public who were having difficulty obtaining liability insurance. This service was then expanded with the creation of the Insurance Resource Group which brought together the skills and expertise of insurance professionals within the public service and the insurance industry. The group assisted by,

(a) giving information on ways to minimize insurable risks, with a view of diminishing associated premium costs, and
(b) acting as a clearing house for information on market sources and insurance coverages.
